class - SE IV

Batch - F4

Roll No - 21430

D.O.S - 8/4/2021

Assignment Name - Carbon Movie report.

Assignment No - 4

Details -

We were shown a movie named "carbon" which showed the gnm picture of the future. where natural oxygen is completely vanished and its price is too high. The report on the same has to be written.

Method -:

The movie was screend using screen sharing option on MS teams platform to the whole class. The movie was played on Youtube and then it was shared with all.

Learnings -:

We learnt lot of things from this movie first of all we understood the consequences of managing oxygen properly. If we keep on shedding trees and do nothing about carbon emissions at the end of the day. we will eventually run out of oxygen and will have to pay heavy price for it.

Conclusion:-

The conclusion is that we have to take huge leaps in carbon emission management and maintain natural oxygen levels on earth otherwise it will be very difficult for us to survive in the future.
